Elica Sharifnia, PhD, is a Postdoctoral Research Fellow at the Marsico Institute for Early Learning at the University of Denver. Her research interests broadly center around better understanding how to best promote high-quality STEM teaching and learning for young children with the goal of informing educational practices in both the school and home context. She has a doctorate in Applied Developmental Psychology from the University of Miami and a B.A. degree in Neuroscience from Claremont McKenna College. Prior to graduate school, she worked as a research analyst doing early childhood STEM education research in the Center for Technology in Learning at SRI International and was a student teaching assistant at The Children's School at Claremont McKenna College.
